

Objectives & Accreditation

OBJECTIVES

Upon completion of this program, the participant will have an understanding of the following:

- State-of-the-science information about the genetic basis of a broad range of psychiatric disorders and the relevance of this information to clinical practice
- Methodologies used to identify susceptibility genes for psychiatric disorders
- Identifying features of genetic syndromes that may present with psychiatric manifestations
- Principles and techniques used in genetic counseling and their application to psychiatry

Release date: December 1, 2004

Credits expire: November 30, 2007

Recorded at live course: September 18, 2004

ACCREDITATION

Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Harvard Medical School designates this educational activity for a **maximum of 8 category 1 credits** toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

The American Medical Association has determined that physicians not licensed in the US who participate in this CME activity are eligible for AMA PRA category 1 credit.

Psychologists: American Psychological Association review is pending for continuing education credit for this course. For further information please write or call:

Harvard Medical School
Department of Continuing Education
P.O. Box 825
Boston, MA 02117-0825

Telephone: 617-384-8600
Monday-Friday, 10am to 4pm (EST)
Email: hms-cme@hms.harvard.edu

**CME credits include audio lectures plus a self-assessment exam. CME credit is obtained upon successful completion of the self-assessment exam. Exam due by November 30, 2007.*

Pharmacogenetics

Roy Perlis, M.D.

Future of Psychiatric Genomics/Genetics

David Pauls, Ph.D.

Course Description & Ordering Information

COURSE DESCRIPTION

Extraordinary advances in genetics are accelerating progress in the theory and practice of modern psychiatry. Keeping abreast of this progress requires that clinicians equip themselves with a new vocabulary, knowledge of new research tools and the most up-to-date concepts regarding the role of genetic factors in psychiatric disorders, and the potential impact of genetic findings on your practice.

This course was expressly designed to help you, the clinician, achieve these goals and remain abreast of the cutting edge in this field.

More than ever, we have chosen faculty whose attention to crystal clear teaching conveys the excitement sweeping across the frontiers of psychiatry. Our plain-talking lectures will guide course participants through an understanding of basic genetics and genomics, research methods in psychiatric genetics, the genetics of specific disorders (e.g., Autism, ADHD, Tourette's, OCD, Psychotic, Affective, Anxiety, and Substance Abuse), the potential role of genetics in drug response (pharmacogenetics), and clinical applications of genetic information (including genetic counseling and testing).

ORDERING INFORMATION

Price: \$150 (USD) in US and Canada • \$250 (USD) outside US and Canada. Price includes audio lectures on compact discs, corresponding syllabus, one self-assessment exam, and shipping. Additional exams may be purchased for \$150 (USD). All foreign payments must be made by a draft on a United States bank or by Visa or Mastercard. If paying by check, make it payable to *Harvard Medical School* and mail with the completed registration form to: **Harvard Medical School, Department of Continuing Education, P.O. Box 825, Boston, MA 02117-0825**. If paying by credit card, fax the completed registration form to (617) 384-8686, or mail it to the above address. **Telephone registrations are not accepted.** Inquiries should be directed to the above address, made by phone: (617) 384-8600, Monday - Friday, 10 a.m. to 4 p.m. (EST) or by e-mail: hms-cme@hms.harvard.edu.

Inquiries should be directed to Harvard Medical School, Department of Continuing Education, P.O. Box 825, Boston, MA 02117-0825, made by phone: (617) 384-8600, Monday-Friday, 10am to 4pm (EST), or by email: hms-cme@hms.harvard.edu
