

## The Patient Doctor Partnership Overview

### PDP Mission Statement

To create and support programs that preserve and enhance patient-doctor communication and relationship.  
To provide BMG patients the opportunity and ability to be informed partners in their care

### PDP Program Criteria:

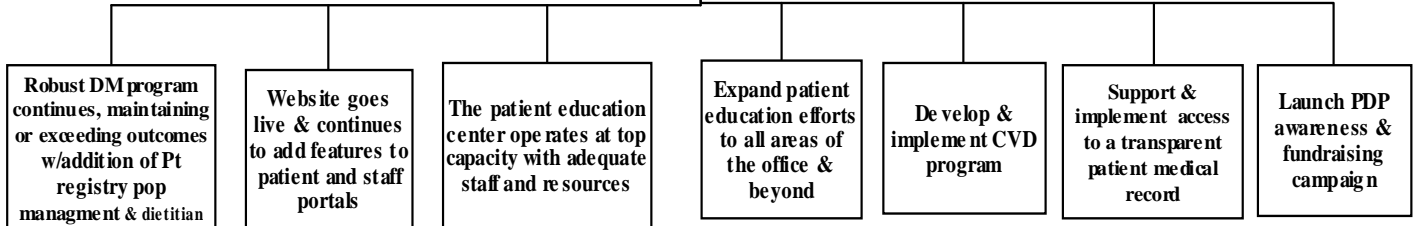

Support and enhance the relationship between patient, doctor and care team  
Provide a service that would not otherwise be available  
Ideally, would build on existing successes and infrastructure  
Whenever possible, be visible, exciting and fundable

### BMG Attributes Resulting From a Successful PDP 5 Year Plan

- 100% of BMG patients will have access to health information in all areas of the BMG office and from their homes
- 100% of BMG patients will have meaningful access & interaction with all aspects of their personal medical record
- BMG will have programs and systems in place offering proactive disease management of at least 3 diseases with accompanying patient tools and support & similar models of wellness & prevention programs
- The Patient Doctor Partnership will have adequate resources to successfully meet all strategic goals with the 5 year fundraising goal of \$3,000,000.
