## *Introduction*

**The Reconstructive Make-Up Service** at Massachusetts General Hospital was created to provide patients with an easy option for minimizing the appearance of scars secondary to burns. You have been referred by your physician because he or she thought the service might work well for you.

This brochure contains some information on the service, as well as how to schedule an appointment for your free initial consultation.

## *Description of the Service*

At your appointment, you will meet with one of our experienced reconstructive make-up consultants. The consultant will first talk with you about your current skin care regimen and what you hope to accomplish through make-up. She will then analyze your skin tones to determine the colors and shades that work best for you.

Once your colors have been selected, your consultant will apply the make-up, simultaneously instructing you in how to apply your own make-up in the future. You should plan on your private, one-on-one consultation lasting about 45 minutes.

## *The Benefits of Make-up*

Other burn patients that have used make-up have found that it helped soften the impact of facial and body scarring and made them feel more comfortable around others. The make-up we use is specially chosen to provide excellent coverage for burn scars and still provide a natural appearance for both males and females.

Most people find that -with some practice- the make-up is quick and easy to apply. It's also waterproof, sweat/friction resistant, and stays on the skin for over 24 hours.

## *Scheduling a Consultation Appointment*

To schedule your free initial consultation, call (617) 726-3712. Thanks to a grant from the MGH "Making a Difference" program and to a generous private donation, your initial consultation cost only \$35 and your first set of make-up (a \$140 value) will be provided free of charge.

Your initial visit includes complimentary moisturizer, foundation, finishing powder and make-up remover. Additional products are available for purchase at a nominal charge.

We also offer you the convenient option of reordering your make-up through the MGH **Reconstructive Make-Up Service**, at significant discounts off department store prices. An order form will be given to you at your initial consultation.
