

Cardiovascular Research Center Seminar Series  
Fall 2008

SPECIAL SEMINAR

Ross Breckenridge PHD  
National Institute for Medical Research  
*A Role for Hand1 in Heart Failure?*  
Wednesday, September 10th  
Host: Ken Chien MD PHD

Alan Garfinkel PHD  
Cardiovascular Research Laboratory  
University of California, Los Angeles  
*The Physics and Math of Cardiac Arrhythmias: What Can We Learn?*  
Tuesday, September 16  
Host: Antonis Aroundas PHD

SPECIAL SEMINAR

Karl Tryggvason MD PHD  
Dean of Research  
Karolinska Institutet  
*Laminins - An Extracellular Operating System for Stem Cells and Cell Lineages*  
Monday, September 29th, 2008  
Host: Ken Chien, MD, PHD

M. Daniel Lane MD  
Department of Biological Chemistry  
Johns Hopkins University School of Medicine  
*Role of Malonyl-CoA and CPT1c in the Hypothalamic Control of Energy Balance*  
Tuesday, October 21  
Host: Paul Huang, MD, PHD

SPECIAL SEMINAR

Miguel Torres PHD  
Cardiovascular Developmental Biology Department  
Centro Nacional de Investigaciones Cardiovasculares, Spain  
*Lineage Tracing Strategies Towards Understanding the Cellular Basis of Mammalian Development*  
Monday, November 3  
Host: Silvia Martin-Puig, PhD

Charles Weissmann MD PhD  
Scripps Research Institute  
*The Secret Life of Prion Strains*  
Tuesday, November 4  
Host: Paul Huang MD PHD

SPECIAL SEMINAR with the Radiology  
Hitoshi Kurose PHD  
Kyushu University, Japan  
*P2Y-G-protein Signaling in Cardiomyocytes*  
Friday, November 7  
Host: Paul Huang, MD, PhD

Gideon Koren MD  
Cardiovascular Research Center  
Brown University  
*Of Mice, Rabbit and Man: Mechanisms of Arrhythmia in Transgenic Rabbits with Long QT Phenotype*  
Tuesday, November 18  
Host: David Milan, MD

Arnold Katz MD  
Visiting Professor of Medicine and Physiology Dartmouth Medical School, +  
Professor Emeritus University of Connecticut  
*Heart Failure: Is the Distance Between Bench and Bedside Widening or Narrowing?*  
Tuesday, November 25  
Host: Calum Macrae, MD, PHD

SPECIAL SEMINAR  
Antonio Bernad PHD  
Regenerative Cardiology Department  
CNIC, Madrid, Spain  
Adult Mesenchymal Stem Cells: Molecular & Cellular Biology for the Development of Clinical Indications  
Monday, December 8  
Host: Silvia Martin-Puig, PhD

Stefan Jovinge, MD, PHD

Stem Cell Center

Lund University

*Cardiomyocyte Growth During Development and in the Adult*

Tuesday, December 9

Host: Sean Wu, MD, PHD
