

Spring 2011

Masaki Ieda, MD, PhD

Associate Professor
Dept of Cardiology
Keio University School of Medicine/Tokoyo
Title TBA
Feb 8, 2011
Host: Sean Wu, MD

Anthony Muslin, MD

Executive Director of Cardiovascular Research
Novartis Institute
"Akt signaling in cardiac growth and
metabolism."
March 1, 2011
Host: Sean Wu, MD, PhD

Iris Jaffe, MD, PhD

Assistant Professor of Medicine and Cell,
Molecular and Developmental Biology,
Tufts University School of Medicine and
Co-Director, Molecular Cardiology Research Center,
Tufts Medical Center
March 8, 2011
Host: Ken Bloch, MD
*The Role of Aldosterone and Vascular Mineralocorticoid Receptors
in Vascular Function and Disease: Lessons from Clinical Trials and
New Molecular Mechanisms*

Yu-Hua Tseng, PhD

Assistant Professor of Medicine
Harvard Medical School
Joslin Diabetes Center
March 15, 2011
Host: Marielle Scherrer-Crosbie, MD, PhD
*Regulation of Brown Adipose Tissue Development:
Progenitors, BMPs, and Beyond*

Todd Evans, PhD

Professor and Vice Chair for Research,
Department of Surgery
Cornell University
March 22, 2011
Host: Caroline Burns, PhD
*From Stem Cells to Regeneration with
GATA Transcription Factors*

Brian Black, PhD

University of California, San Francisco
Cardiovascular Research Institute
March 29, 2011
Host: Ibrahim Domian, MD, PhD
Transcriptional Control of Endocardial Cushion Development

Vladimir Muzykantov, MD, PhD

Program in Targeted Therapeutics
University of Pennsylvania School of Medicine
April 5, 2011

Host: Dmitriy Atochin, PhD
Targeted pharmacotherapy for endothelial biomedicine

Ajit Varki, MD

University of California, San Diego
April 19, 2011

Host: David Milan, MD
Human-specific Mechanisms of Inflammation : Implications for Human Diseases

Lionel Opie, MD, DPhil, DSc, FRCP

Hatter Institute for Cardiology Research, Cape Town
April 26, 2011

Host: Kenneth Chien, MD, PhD
Metabolic Therapy for Heart Failure – New Wine for Old Bottles?

William Pu, MD

Assistant Professor, Cardiology
Children's Hospital
May 10, 2011

Host: David Milan, MD
Transcriptional Regulation of Heart Development and Disease

Cancelled

Shoukhrat Mitalipov, PhD

May 17, 2011

SPECIAL SEMINAR

Lior Gepstein, MD, PhD

Professor of Medicine (Cardiology) and Physiology
The Bruce Rappaport Faculty of Medicine
Technion - Israel Institute of Technology
June 7, 2011

Host: Sean Wu, MD, PhD
Human Pluripotent Stem Cells: Implications for basic and translational cardiovascular research
