

MGH, Karolinska Institutet and *Nature Medicine*

present:

DAYS OF MOLECULAR MEDICINE 2007

EMERGING TECHNOLOGIES AND CANCER BIOLOGY

Chemical biology, systems biology, nanotechnology, molecular imaging. These and other emerging approaches and technologies are beginning to have a profound influence on molecular medicine. DMM 2007 will focus on recent progress in our understanding of tumor biology as a result of advances in the application of these cutting-edge technologies

May 22-24, 2007
The Charles Hotel and
Harvard University
Cambridge, MA, USA

Organizers

Randall Peterson (MGH/Harvard Medical School)
Daniel Haber (MGH/Harvard Medical School)
Jesper Z. Haeggström (Karolinska Institutet)
Alison Farrell (*Nature Medicine*)

Keynote Speaker

Ralph Weissleder (MGH/Harvard Medical School)

Speakers

Anders Brahme (Karolinska Institutet)
Arul Chinnaiyan (University of Michigan Medical School)
Christopher Contag (Stanford University)
Omid Farokhzad (Harvard Medical School)
Stephen Fesik (Abbott Laboratories)
Todd Golub (The Broad Institute of Harvard and MIT)
Joe Gray (University of California, San Francisco)
Daniel Haber (MGH/ Harvard Medical School)
Nobutaka Hirokawa (University of Tokyo)
Hiroaki Kitano (Systems Biology Institute, Japan)
Rakesh Jain (Harvard Medical School)
Robert Langer (Massachusetts Institute of Technology)
Sean Morrison (University of Michigan Medical School)
Renata Pasqualini (MD Anderson Cancer Center)
Randy Peterson (MGH/Harvard Medical School)
Stuart Schreiber (The Broad Institute of Harvard and MIT)
Judith Sebolt-Leopold (Pfizer)
Mathias Uhlen (Royal Institute of Technology, Sweden)
Paul Workman (Institute of Cancer Research, London)
