

# Improving Quality and Achieving Equity: A Guide for Hospital Leaders

## Acknowledgements

The Disparities Solutions Center would like to extend our sincerest gratitude to The Robert Wood Johnson Foundation for their generous support for the development and design of *Improving Quality and Achieving Equity: A Guide for Hospital Leaders*, and in particular Pamela Dickson, MBA, formerly our Project Officer, now Deputy Director of the Health Care Group, for her guidance and advice. We would like to extend our special thanks to all of the hospital leaders who agreed to be interviewed for this project, as well as the hospitals who allowed us to conduct a more extended site visit to develop the case studies presented here. We would also like to thank our Sounding Board for this project, which provided input and feedback from conception to design, as well as the reviewers who graciously agreed to share their perspectives and expertise to make this a practical, effective tool for real-world hospital leaders. We are deeply appreciative of Ann McAlearney, ScD, MS, Assistant Professor, Division of Health Services Management and Policy, Ohio State University School of Public Health, and Sunita Mutha, MD, FACP, Associate Professor of Clinical Medicine, Center for the Health Professions, Division of General Internal Medicine, University of California, San Francisco, who shared key resources and perspectives.

Special thanks go to the leadership and administration of the Institute for Health Policy, and in particular the Institute's Director, Dr. David Blumenthal, Associate Director, Dr. Lisa Iezzoni, and Administrative Manager, Lisa Morse, for their continued support of the Disparities Solutions Center, and for providing us with a home that allows us to benefit from the expertise and experience of all the talented faculty and staff.

Finally, we would like to express our appreciation to the leadership of Massachusetts General Hospital – including Drs. Peter Slavin (President), Gregg Meyer (Vice President of Quality and Patient Safety) and Elizabeth Mort (Vice President, Associate Chief Medical Officer), as well as Joan Quinlan (Director of the Center for Community Health Improvement) – for their vision, support, partnership, and commitment to improving quality and achieving equity. They have provided us with a living laboratory to develop and implement innovative programs while assuring we provide quality care to every patient we see, regardless of their race, ethnicity, culture, class, or language proficiency.

## About the Authors

### Primary Authors

**Joseph R. Betancourt, MD, MPH**, is the Director of the Disparities Solutions Center, Senior Scientist at the Institute for Health Policy, and Director of Multicultural Education at Massachusetts General Hospital (MGH). He is also an Assistant Professor of Medicine at Harvard Medical School, and a practicing internist at MGH. He has served on several Institute of Medicine (IOM) Committees, including those that produced *“Unequal Treatment: Confronting Racial/Ethnic Disparities in Health Care”*, *“Guidance for a National Health Care Disparities Report”*, and *“In the Nation’s Compelling Interest: Ensuring Diversity in the Health Care Workforce.”* He served on the Boston Public Health Commission’s Disparities Committee, the Massachusetts State Disparities Committee, and now co-chair’s MGH’s Disparities Committee and is on the Massachusetts State Disparities Council.

**Alexander R. Green, MD, MPH**, is the Associate Director of the Disparities Solutions Center and Senior Scientist at the Institute for Health Policy at Massachusetts General Hospital. He is also Chair of the Cross-Cultural Care Committee at Harvard Medical School. His work focuses on programs designed to eliminate racial and ethnic disparities in care, including the use of culturally competent quality improvement interventions, leadership development, and dissemination strategies. He has studied the role of unconscious biases and their impact on clinical decision-making, language barriers and patient satisfaction, and innovative approaches to cross-cultural medical education. He has also served on several national panels on disparities and cultural competency including the Joint Commission’s “Hospitals, Language, and Culture” project.

**Roderick R. King, MD, MPH**, is currently Senior Faculty at the Disparities Solutions Center and an Instructor in the Department of Global Health and Social Medicine at Harvard Medical School. Dr. King's work focuses on leadership and workforce development, and improving health systems performance as they relate to addressing health disparities and improving the health of underserved populations. In addition, Dr. King was recently selected as one of two Inaugural Institute of Medicine Anniversary Fellows where he serves on the Board on Global Health, which oversees the study, *"The US Commitment to Global Health."* In addition he also serves on the Board on Population Health and Public Practice, which oversees the IOM *"Roundtable for Racial and Ethnic Disparities."* He most recently served as the Director for the Health Resources and Services Administration, Boston Regional Division and as a Commander in the US Public Health Service, U.S. Department of HHS.

### **Contributing Authors**

**Aswita Tan-McGrory, MSPH**, is the Operations Manager at the Disparities Solutions Center. Her interests are in providing equitable care to underserved populations and she has worked in the areas of maternal/child health, elder care, homelessness, and HIV testing and counseling. She received her Master of Science in Public Health from Tulane University School of Public Health and Tropical Medicine with a concentration in tropical medicine and parasitology. Prior to receiving her graduate degree, she spent two years in rural Nigeria, West Africa, on water sanitation and Guinea Worm eradication projects with the Peace Corps.

**Marina Cervantes** is a Research Assistant at the Disparities Solutions Center and graduated with a Bachelor of Arts in Ecology and Evolutionary Biology and a certificate in Spanish and Portuguese Languages and Cultures from Princeton University. While at Princeton she was president of Chicano Caucus and was involved in research on environmental health policy, immigration, and diabetes.

**Megan Renfrew, MA**, is a Project Coordinator at the Disparities Solutions Center and oversees the implementation and evaluation of the community-based health intervention programs. Ms. Renfrew has over eight years of professional experience in public health research, project management, and program evaluation, with a specialization in qualitative methods. She received a Masters Degree in Gender and Cultural Studies from Simmons College and is currently a PhD Candidate in Sociology at Brandeis University with a focus in medical sociology, qualitative research methods, and the sociology of families.
