

The Office for Research Career Development (ORCD)

presents a

Lunchtime Seminar for Postdoctoral Researchers

Image Manipulation in Scientific Research: Is an Image Still Worth 1,000 Words?

Dennis Brown, PhD,

Associate Chief for Research Affairs, MGH Nephrology Division;
Director, MGH Program in Membrane Biology;
Professor of Medicine, Harvard Medical School

The use of images is a critical way of communicating research findings in journals. Advancements in computer software have made it very easy to edit these images. Professor Brown, Editor of the American Journal of Physiology – Cell Physiology, will discuss appropriate and inappropriate computer editing of scientific images for authors of journal articles.

Tuesday, June 19, 2007

12:00 noon - 1:00 pm

Simches Medium Conference Room 3.120

Lunch will be available.

RSVP by email to orcd@partners.org
or by calling our office at (617) 643-1606.
