

*In Commemoration of
Women in Medicine Month*

Prospects for Innovation: Opportunities and Challenges Ahead

INNOVATION fueled tremendous advances in our economy, human health, and quality of life in the generations since World War II. In her talk for Women in Medicine Month, President Hockfield will discuss the prospects for the next cycle of innovation, paying particular attention to the role of academic research centers and highlighting critical areas for investment and exploration, the opportunities for the greater Boston region, and the importance of encouraging and developing a diverse pool of talent.

Featured Speaker: **Susan Hockfield, PhD**

President, Massachusetts Institute of Technology and Professor of Neuroscience in the Department of Brain and Cognitive Sciences

Susan Hockfield, PhD is a noted neuroscientist whose research has focused on the development of the brain, she is the first life scientist to serve as President of the Massachusetts Institute of Technology, where she holds a faculty appointment as Professor of Neuroscience in the Department of Brain and Cognitive Sciences.
