Fenway Health

Please join us for a moderated roundtable discussion among community leaders on the current challenges in lesbian, gay, bisexual and transgender healthcare. By bringing this diverse group together, we hope to start a conversation that both illuminates our current challenges and allows us to explore a new vision for the future of LGBT healthcare. All are then welcome to continue the conversation with members from all our organizations at a reception with food and beverage.

This first-ever collaboration between the LGBT employee groups of the Harvard affiliated hospitals, the Harvard Medical School student group, the HGLC and Fenway Health is part of LGBT Health Awareness Week, a nationwide effort to explore issues of LGBT health.
