

## PAIN RELIEF CHAMPIONS: STATE OF ART & SCIENCE - DAY I & II

March 13 and 27, 2009

8:00 – 4:30 p.m.

O'Keefe Auditorium

This two-day course examines the problems of needless pain and reviews evidence-based and best-practice approaches to overcome barriers believed to underly this gap between science and practice. This multidisciplinary interactive course imparts requisite knowledge and skills for participants to effectively assess and manage pain. Advanced content on the second day helps participants apply this knowledge through case-based and hands-on activities as well as developing strategies for improving pain treatment in their clinical practice environment.

Contact Hours  
Will be Awarded

Criteria for successful completion includes attendance at the entire event and submission of a completed evaluation form.
